VENTURE & INVESTING

ACME Capital / Silicon Foundry

Venture Analyst

San Francisco, CA

March 2026 – August 2026

- Sourced early-stage companies for Silicon Foundry, researching founders, sectors, and emerging market opportunities
- Evaluated 5+ hard tech, health, and consumer startups for ACME Capital through market and product research
- Built an AI relationship-intelligence platform from scratch to map both firms' networks and surface relevant connections

Draper Associates

Venture Scout

Los Angeles, CA

December 2023 – December 2025

- Sourced and evaluated 30+ startups as Draper's sole SoCal scout across deep tech, aerospace, climate, drones, and AI
- Met with founders and conducted product diligence and competitive mapping to assess defensibility and go-to-market risk
- Prepared investment summaries outlining thesis, key risks, and open questions for review by the Draper investment team

Bain Capital

Summer Analyst - IndiaRF Private Equity

Mumbai, India

June 2024 – August 2024

- Sole undergraduate intern on a live \$100M+ private equity transaction; the target company was subsequently acquired
- Conducted commercial diligence on 5+ companies, covering market sizing, competitive mapping, and key risk assessment
- Prepared investment memos on market dynamics, competition, and risks for senior leadership during deal evaluation

OPERATING & TECHNICAL EXPERIENCE

Aside

Founder

Singapore

February 2026 – Present

- Founded and built Aside end to end, a premium dining app providing curated access to Singapore's high-end restaurants
- Own product, app development, branding, onboarding, and partnerships; engaged 20 restaurant prospects pre-launch

Adaptive Security

GTM Intern

Los Angeles, CA

May 2026 – July 2026

- Owned RevOps at an AI security startup, managing Salesforce operations, lead routing, and workflow automation
- Built Salesforce automations that improved record accuracy ~30% and saved the team 1–2 hours daily

Ernst & Young (EY)

Intern – Technology Consulting

Singapore

May 2025 – August 2025

- Only intern working directly with partners on a 45-person team supporting a \$10M Singapore government contract renewal
- Supported tender repricing and scope negotiations; built budget models up to S\$8M used in renewal discussions
- Produced 3-4 executive strategy decks presented to senior client and Singapore government leadership

USC Rocket Propulsion Laboratory (RPL)

Structural Analysis Engineer

Los Angeles, CA

January 2024 – May 2026

- Performed aerothermal and structural analysis of rocket nozzles and bulkheads in ANSYS for a 100+ member launch team
